# NEW! Enhanced Outplacement Ambassador Services!

Our enhanced Outplacement Ambassador Program gives each person their own unique 'passport' of available workshops like:

- Everything I learned I learned from a Dog
- Reduce Stress
- Creative Art
- Financial Planning
- Meditation

Traditional firms fail to address the underlying emotional reasons that prevents a person from bouncing back after a lay off. You aren't keen to look for a job when you can't even get out of bed.

Enter Fido, or in this case, my dog Bear. Bear is an Emotional Support Dog and part of the 'dog' team that supports folks in their turmoil after being fired.

Our team of caring professionals do not leave your past employees to motivate themselves, or heal their own wounds. Research shows that having time spent with specific directed activities helps boost morale, confidence and esteem. This can be done through interactions with animals, or, my team of professionals also provide additional workshops in areas of creative art, stress reduction techniques and time in nature.

With or without a dog, or the additional services, you don't pay any more. Same outplacement PLUS the option to help them overcome their emotional barriers.

This helps you, the corporation in the long run. Instead of employees who carry past bitterness or wounds they will have progressed, moved beyond, and truly show up at their next role with coping and life skills they haven't had before.

Each participant will get a passport of available workshops like those listed above to get the support they need during their program.
